Skills

- **Languages:** HTML, CSS, JavaScript
- **Frameworks:** React JS, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL
- **Tools :** Git, Github, Postman, VS Code

Work Experience

IT Executive   **Apr 2023 - Current**
CDAC   *Lucknow, India*

- Collaborated with **cross-functional teams** including designers and developers, to enhance **user experience** and **frontend components**.
- Optimized **UI design** for **75 districts**, improving **operational efficiency**.
- Developed **responsive frontend components** for an **inventory management system**, ensuring **performance** and **user-friendly interactions**.
- Led **frontend quality assurance** efforts, ensuring **optimal performance** across devices.
- Conducted **UI testing and debugging**, resolving issues and improving the accuracy of **User Acceptance Testing (UAT)** to ensure that all applications met design specifications.

Senior Relationship Manager   **Jul 2022 - Mar 2023**
ICICI Securities Ltd.   *Ghaziabad, India*

- Managed **client relationships**, applying strong **communication skills** applicable to **UI/UX** issues.
- Managed a customer base of 200+ clients, ensuring consistent service quality enhancing the **user experience**.

Projects

- **Taskmaster:** Built a task management app using **React**, **Framer Motion**, and Tailwind CSS, implementing **draggable task cards**, **status/priority updates,** and **local storage persistence** for seamless user experience across sessions.
- **Acme Notes:** Designed and optimized a responsive note-taking web application using Tailwind CSS, ensuring **intuitive UI** and seamless **cross-device functionality**.
- **Tic Tac Toe**: Developed a **two-player game** in React, using **state management** (useState) and **React hooks** (useEffect) to track winning patterns, trigger animations and enhance user experience.
- **Random User Generator:** Built a **React app** that integrates with an **external API** to display user profiles, adding **dynamic data fetching**, refresh features and a **custom loader.**
- **World countries**: Developed a country information app using **REST API integration** and **asynchronous JavaScript** (fetch) for dynamic data fetching and error management.
- **Focus on Today:** Built a To-do app using vanilla JavaScript with **local storage** for data persistence.
- **Age Calculator:** Developed a **responsive** age calculator using React and Tailwind CSS, incorporating **date validation** for leap years, varying month lengths, and future date restrictions to deliver accurate results and enhance user experience.

Education

- **Master of Business Administration (MBA)**   **2022**
  BBD University, Lucknow
- **Bachelor of Business Administration (BBA)**   **2019**
  Galgotias University, Gr. Noida
